Perier Is Firm on the Ministry Matter-Italian Cabinet Will Probably Be

Formed by Zanardenelli Himself. London, Nov. 28.—Gladstone, in the commons today, said: The govern-

commons today, said: The government had no information regarding any proceedings on the part of Russia to acquire a naval station in the Meditteransan. Home Secretary Asquith, replying to a question, said no doubt an attempt had been made to cause a dynamite explosion in Dublin, but he was unable to say whether there. was unable to say whether there was any connection between the murder of the man named Reed yesterday evening and the dynamite plot, as the police of Dublin thought it inadvisable to make further statements upon the subject at present. Sydney Buxton parliamentary secretary of the colonial office, said Lord Aberdeen, governorgeneral of Canada, telegraphed that the attempt to blow up the Nelson monument in Montreal was a freak of three excitable lads, and that the outrage was the subject of regret and disapproval on the part of the entire French and English press of Canada. Henry Asquith, home secretary, questioned in regard to prohibiting the anarchists from using Trafalgar Square as a meeting place, said he was convinced the purposes of this group was unlawful, but his decision had nothing to do with the Trafalgar Square meeting, which would have been unlawful, anyway. police of Dublin thought it inadvisable

IN MEMORY OF LOWELL.

Nov. 28.-The tablet and window to the memory of A BRILLIANT RECITAL. James Russell Lowell, erected in the cid Chapter house of Westminster Abbey by subscriptions of his English admirers, was unveiled today with impressive ceremonies. Among the speakers were United States Embassaddor Thomas F. Beyard, who delivered a glowing eulogium on the genius and worth of the dead statesman and poet, and referred eloquently to the services of Lowell while he was minister to Great Britain, in bringing about a hetter understanding between England and the United States.

The Dean of Westminster, in his address, reckoned Lowell among the greatest literary men, including Chaucer, Spencer, Milton, Dryden and Shakespeare.

Shakespeare.

Joseph Chamberiain expressed his thanks to Minister Bayard for his presence at the ceremony.

Leslie Stephen said to Lowell had fallen no small share of the spirit of the greatest masters of English literation of the composer, such true pools in the greatest masters of English literations.

The Absolutely Declines to Accept the Fremiership.

Parie, Nov. 28.—On receiving M. Carnet's summons, M. Cassier Perier proceeded to the president's residence. So uncompromising was Casimir Perier in his objections to accepting the president Carnot did not press him further and the conference was confined to a discussion of the situation. Later in the evening president Carnot held consultations with M. Develle and M. Dupuy and will probably see M. Callieres of M. Welhe's playing of an air many president Carnot held consultations with M. Develle and M. Dupuy and will probably see M. Callieres of M. RAILWAY CIRCLES.

Changes in Rates on Cattle, Wool and Ore.

Those in Force Last Spring to Be Re

stored-Increase in Union Pacific

Business-Notes.

General Freight Agent S. H. Babcock of the Western is figuring on some agreement arrived at by he and Mr. Monroe of the Union Pacific. Last evening he announced that the cattle rate between Sanpete Valley points and this city has been restored from 329, the figure to which it was cut last spring, to \$32. On January 1st, the rate of \$132.15 on standard cars of cattle to Missouri river points from Utah common points, will be restored displacing the rate of \$115 that was put in effect last spring. This hasing rate on cattle, of course, applies to double decked cars of sheep, while as usual the rate on horses will be \$10 higher. In the matter of baled wool, the rate in force last spring, \$1.35 per hundred weight to Missouri river points will be restored, displacing the present rate of \$1. These low rates on wool and live stock that will be displaced on January 1st, have been in force all the season, and all shipments out of Utah have been made under them. Thus a saving of hundreds of thousands of doilars has been made at a time when such a saving had become most necessary. The restoration to the old figures is not a matter to be rejoiced over but it is somewhat consolatory to believe that low rates for a short time are better than higher rates all the time.

Mr. Babcock has not yet figured on amounts but says there will likely be changes in ore rates to Colorado, but no change will be made in local ore rates. As to other local business he is not yet prepared to make any statement.

An Increase Is Shown on the Wyoming Division.

The Wyoming division of the Union Pacific makes a very creditable showing, in comparison with other divisons of the road. During the first twelve days of October 33,121 cars of freight were handled on the Wyoming division, an increase over the number handled during the same period last year of 5,557 cars. This is considered a remarkable showing, considering the general business depression through-out the country.

Railway Notes.

Superintendent L. Mulloy, of the Wy-oming division of the Union Pacific, was down yesterday. E. J. Smith, of the engineering corps of the Union Pacific, is in town. A number of persons will leave for Manti on this morning's train to be present at the celebration attendant upon the arrival of the Sanpete Valley

Tells an Interesting Story. Fifteen Years of Suffering but Relief Was found at Last. Words of Praise Greet the Skillful.

"A story of much interest to those who suffer from catarrhal troubles is told by a well known and highly respected lady who has lived in Salt Lake forty-three years. Mrs. Clara H. Woodard. The past fifteen years of her life, which has certainly been one of sorrow, all owing to an aggravated case of catarrh. But relief was found at last through the skillful treatment of Drs. Mansheld and Blesett. In conversation with the writer she relates the following:

"For the last fifteen years I have suffered from that dreadful disease catarrh. It annowed me but little at first, but I noticed each year that the disease gradually became worse. I tried many different remedies in trying to check its progress, but of no avail.

"I suffered with headaches, pains through the temples and a queer sensation every few days over my eyes, which felt like pieces of ice were lying on my head, My nose was stopped up. My throat seemed filled with an obstruction, and at times I could scarcely get my breath. My hearing became impaired. Hot and cold flashes darted over my body. My heart would pulpitate with the least exertion. My memory was poor. I obtained but little rest at night and would get up feeling tired. I had no ambition for work, and my life seemed doomed to be one of misery until I noticed the remarkable skill of Drs. Mansfield and Bissett through it would give them a trial.

"I went to Drs. Mansfield and Bissett soffice in the Dooly building and began their treatment, and I am pleased to state that I noticed an improvement after the first treatment. A new life seemed to take hold of me and today I feel like another woman. The headaches and sensations over the eyes have left me. My nose is clean, my throat is free from obstruction and my breathing natural. I cannot tell you in words the gratitude I feel for Drs. Mansfield and Bissett, but anyone calling on me I will gladly state my case personally.

All diseases only \$5 a month, not a cent more will be accepted. Consultation free. Medicine Free.
